SUMMARY

I am a Data Annotation & NLP Specialist with over 5 years of experience in AI-driven projects. My expertise lies in multilingual transcription, sensor-based object detection, and the creation of high-quality datasets for AI/ML models. Recognized for my accuracy and leadership abilities, I excel in using advanced labeling tools while maintaining stringent quality standards

EXPERIENCE

Data Annotator (Quality Analyst)
CONVIN Feed Forward Technology

📅 11/2022 - 01/1970   📍 Bangalore

Data Annotation Company specializing in AI/Machine Learning solutions

- Building the next generations of speech recognition by producing high quality transcriptions which train and improve Convin.ai products and services
- Utilized native language skills (Kannada & English) to capture linguistic nuances, grammar, punctuation, and spelling accuracy
- Transcribed audio/video files with precision, adhering to guidelines and project requirements
- Reviewed and assessed transcription/annotation results for accuracy and performance improvement
- Handled offensive/sensitive content to enhance AI model capabilities
- Worked closely with teams for issue resolution and project execution
- Extracted and annotated data with high accuracy, ensuring consistency in sentiment, intent, and semantic analysis

Data Annotation Specialist
L&T Technology Services

📅 08/2019 - 10/2022   📍 Mysuru

Leading technology services company providing engineering solutions

- Worked on data labeling tools and annotated data for machine learning models
- Collected training data and marked vehicles/living things using in the Sensor detected images using 2D & 3D bounding boxes
- Achieved 100% Quality Acceptance in team delivery at L&T
- Successfully led annotation team in high-complexity ADAS projects
- Collaborated with data scientists/engineers to ensure data readiness for AI models
- Identified and documented errors, improving labeling tools, and training new annotators

Apprentice and NEEM trainee
TVS Motor Company

📅 06/2016 - 06/2018   📍 Mysore

Automobile manufacturer known for motorcycles and scooters

- Knowledge on quality checks (Electrical & zone inspection of vehicle)
- Color parts inspection & welding inspection of vehicle
- Assembled half cycle vehicles and performed rework
- Performed defect correction and defect logging

KEY ACHIEVEMENTS

🧠 **Key Achievement in L&T**
Led the annotation team in complex ADAS projects and achieved 100% quality acceptance in deliveries

SKILLS

Adobe Photoshop   Canva   GCP

JIRA   Microsoft Office   NLP

Notepad++   Photo Editing

Photoshop   Python   SolidEdge

Welding   Basic Python   CAD

Gmail

PROJECTS

ADAS Projects at L&T Technology Services

📅 01/2021 - 10/2022   📍 Mysuru

Various projects in AI data labeling and analysis

- Annotated data using Playment tool for Lidar (3D & 2D)
- Performed quality analysis using Drive Viz v0.1 & Drivescope tools for Radar Data Marking
- Conducted quality analysis using Canvas tools on ADAS Image Annotation and Semantic Segmentation

INTERESTS

✔️ **Hobbies**
Enjoys creative activities such as photo editing and engaging in online games

🏃 **Hobbies**
Watching movies and exploring different genres

Powered by Enhancv

EDUCATION

Diploma in Mechanical Engineering

Govt. Polytechnic

📅 01/2013 - 01/2016   📍 Chamarajanagara

Bachelor of Engineering in Mechanical

JC Engineering Evening College

📅 01/2018 - 01/2021   📍 Mysuru
